

iGolf Partners with Tour to Benefit Charity

Partnership with OVGA Amateur Golf Tour helps raise funds for Make-A-Wish Foundation

San Diego, California, April 12, 2007 – L1 Technologies, creator of the iGolf GPS Caddie, a handheld golf GPS device that provides golfers with the key distances on the course, has formed a partnership with the Ohio Valley Golf Association (OVGA) Amateur Golf Tour. The OVGA runs a competitive golf tour open to golfers of all handicap levels with the goal of raising money for charity. iGolf has teamed up with the Tour to help raise funds for the Make-A-Wish Foundation.

“This is a great opportunity that benefits all parties involved,” said David Alexander, L1 Technologies VP of Sales. “OVGA members have access to a great golf device, the iGolf GPS Caddie gets put to good use by avid golfers, and, most importantly, money will be raised for a great cause.”

In addition to providing the distances to the green, the Caddie allows users to add up to eight custom points per hole and measure the distances of drives and other shots during the round. The GPS Caddie retails for \$229.99 and is available at www.iGolf.com and retailers across the country.

About the OVGA Amateur Golf Tour

The Ohio Valley Golf Association was organized in 2003 as a way to bring together those who enjoy the game of golf. The OVGA is a competitive golf tour open to golfers of all handicap levels. The OVGA has had over 600 area golfers tee it up during the first three seasons and an average of over 70 players per event during the 78 events the tour has staged. Current yearly dues are \$50 per year to join. Proceeds will go to charity and all members will receive a USGA Handicap.
