PRESS RELEASE

iGolf Launches Saturn and Triton

Innovative GPS Devices Put the Golfing World on Notice

SAN DIEGO, December 30, 2008 – L1 Technologies continues to move beyond the industry standard of GPS handheld devices as it announces the latest additions to the iGolf product line with Saturn and Triton. Equipped with the latest advancements in GPS technology, Saturn and Triton are innovative products that utilize today’s most advanced technology to provide critical information necessary for golfers of all abilities to improve their games.

“We are excited to launch Saturn and Triton to the golfing industry,” said Brian Verdugo, Chairman and President of L1 Technologies Inc., the parent company to the iGolf brand. Saturn and Triton are currently being launched as a limited release through igolf.com, with further details to follow at the 2009 PGA Tour Merchandise Show in Orlando, Florida from January 29th to January 31st. iGolf has scheduled a news conference on Friday January 30th from 10:00am to 10:30am in Room 312A in the Show Media Center. iGolf will be located in the general golf area section of the Show Floor, in booth number 3109.

Key Features and Specifications

Saturn presents information on a large 2.17” transreflective full-color screen and holds 100 GPS course files. Saturn displays the custom shape and layout of each hole, and allows users to measure the distance to any point. Saturn is available for purchase at igolf.com for \$299.99.

Triton features a high-contrast LCD screen and stores up to 15 GPS course files. This innovative device provides golfers with valuable information, including how far away they are from any target on the green. Triton also allows golfers to keep score and track statistics. Triton is available for purchase at igolf.com for \$199.99.

Saturn and Triton both feature Sirf Star III chips, which operate on a 20-channel receiver. At only four ounces, and with dimensions of 3.85” by 2.15” by .75”, the compact size allows golfers to clip Saturn or Triton to their belts, or slip either device comfortably into their pockets or golf bags. The 12 to 16 hour rechargeable lithium-ion battery ensures multiple rounds of golf for all players.

About iGolf

Pioneering the consumer golf GPS market, iGolf, operated by L1 Technologies, has become a brand uniquely focused on providing technological advances in software, hardware and GPS content for the golfing sector. With a strong global presence, iGolf continually strives to offer innovative and affordable mobile and web-based solutions for golfers around the world with products and services currently being used in over 20 countries.

As host to the world's largest GPS enabled golf course database, iGolf.com is the backbone supporting both "iGolf" and "Powered by iGolf" partner products. Additional features such as the iGolf Handicap Tracker, the latest golf headlines, equipment, travel, gadget and course reviews make iGolf.com the chosen destination site for golfers of all interests. iGolf.com provides the golfing community many of these valuable services at no cost while maintaining some paid premium services.
