

L1 Technologies Partners with Bushnell to Release Preloaded Golf GPS Devices

XGC+ and Neo+ are Course Ready Out of the Box with No Membership Fees

SAN DIEGO, October 1, 2010 – L1 Technologies, parent company of the [iGolf](#) brand, has partnered with [Bushnell Outdoor Products](#) to release two new embedded golf GPS devices. The Bushnell Yardage Pro XGC+ and Bushnell Neo+ are both powered by iGolf, and come preloaded with courses throughout the United States.

The XGC+ and Neo+ have been developed with the latest golf GPS technology from iGolf to provide consumers with maximum convenience and ease-of-use. Each device is ready to use out of the box without downloading any additional software or paying a membership fee. Course updates are also available at [iGolf.com](#) with a free membership and device registration.

"We are proud to continue a successful partnership with Bushnell Outdoor Products," said Gary Symington, General Manager of the iGolf Division. "With our new embedded technology, the XGC+ and Neo+ are both course ready, ensuring that golfers are always prepared with the GPS data they need for their next round."

Bushnell Yardage Pro XGC+

The [XGC+](#) features a large transreflective color screen, compact design and is preloaded with Front, Center, Back of the green distances and custom points for courses throughout the United States. In addition, golfers can register the device for free at [iGolf.com](#) to download interactive hole maps with multi-level zoom for detailed shot planning on available courses. Custom, full-color maps provide distance to any point on the hole, allowing golfers to measure the exact yardage to greens, hazards, lay up points and every other target on the course. The XGC+ also features instant course recognition, auto hole advance, handicap/statistic tracking, score keeping, shot distance calculation and a driving range mapping application.

Bushnell Neo+

The [Bushnell Neo+](#) is ready to use out of the box with Front, Center, Back of the green distances and custom points preloaded on the device for maximum convenience. The Neo+ also contains many advanced features, including instant course recognition, auto hole advance, shot distance tracking, and a course mapping tool to custom map any course in the world. With its compact design, (1.75" x 3.25" x .75" x 2.5 oz), the Neo+ easily fits in a pocket and contains a higher resolution screen and 100% larger text menus than the original Neo.

The XGC+(\$299.99) and Neo+(\$149.99) are now available for purchase at [iGolf.com](#).
